“ What can I say that hasn't been said over and over. We are all gonna miss Addison dearly. I have known Addy since my teenage years, he lived down the street from my dad insurance office. I would stop by just to see what he was up too and say hi to the family. Helped out on little things around his family's welding shop and also did a shop drawing or two for them. The only time I ever skipped high school was with him to go get scuba certified. Still remember day a clear as day. I was so afraid my mom and dad would get that call but it never happened. We completed the course and started enjoying one of his many hobbies together in Pompano Beach, Florida. We graduated together in 1988 from Coconut Creek High. I could go on and on... Addy did make some great memories with alot of us. Memories he will never forget. Til we meet again... RIP Addison.

“ Addy truly made one of the biggest impacts on me as I began my ultrasound career 15 years ago. He was the BEST teacher and mentor. If it wasn't for him I don't know that I would have survived the ultrasound world. He definitely shaped who I was as a sonographer. I had not seen or spoken to him recently but thought of him often. My thoughts and prayers are with the family during this time. I will always admire him for his love of life, kindness, his skills as a sonographer and what he stood for...always living his best life. I am so grateful I had the privilege of knowing him.
