“ I used to drive Margot to the Women's Fellowship at different women's homes - Diamond hill Church). One day standing in a line at a print shop I met Margot's neighbor across the street. He recognized my car. He said he had been concerned because my tires looked low, He was pleased that I had gotten new tires. Then he told me about his doge- They went over to Margot's and she gave them treats. He said "She talks to them in German- and they understand her!!!" We all loved Margot; we miss her. Kit Dean

“ There are many memories of my aunt from visiting as a child and living with her and my Uncle Jack. They welcomed me into their home and treated me the same as their own children. She was a wonderful woman and will be missed by many.

“ I remember in the morning when we lived on Texas Ave Candie would go out on the deck and holler for your mom telling her it was time for coffee. She would come over with a face and say she was the only one that said her name correctly.
